Annals of Economic and Social Measurement, 5/4, 1976

CONTENTS

Volume 5—Year 1976

Number 1—Winter 1976

Editor's Corner		i
The NBER/NSF Model Comparison Seminar An Analysis of Results	Gary Fromm and Lawrence R. Klein	1
Cyclical Impacts on the Personal Distribution of Income	Charles Beach	29
FIML Estimation of Rational Distributed Lag Structural Form Models	Kent D. Wall	53
Second Order Approximations for Estimating Production Functions	Vittorio Corbo	65
Maximum Likelihood Estimation of Moving Average Processes	Denise Osborn	75
Interpreting Spectral Analyses in Terms of Time Domain Models	Robert F. Engle	89
Real Value Added and the Measurement of Industrial Production	Stefano Fenoaltea	111
Programming Software Notes		
Information Systems for Public Sector Management	William D. Haseman and Andrew B. Whinston	139
The Estimation of Dynamic Economic Relations from a Time Series of Cross Sections	Neil W. Henry, John F. McDonald, and Houstan H. Stokes	153
Research Methodology Notes		
A Data Base Improvement for Analysis of U.S. Imports and Exports: Price Indices by End-Use, 1958: 1–1974:4	Sung Y. Kwack	157
Criteria for Evaluation of Econometric Models: A Correction	W. A. Jayatissa	161
Reply	Saul H. Hymans	161
Computer Center Notes		163
Announcements		165

Number 2—Spring 1976

Special Issue on Control Theory Applications: Macroeconomics

Introduction	David A. Kendrick and Edison Tse	i

Applications of Control Theory to Macroeconomics	David A. Kendrick	171
Optimal Macroeconomic Control Policies	Roger Craine, Arthur Havenner and Peter Tinsley	191
Use of the Linear Quadratic Approach to Study the Dynamic Policy responses of a Nonlinear Model of the French Economy	B. A. Oudet	205
Neighboring Stochastic Control of an Econometric Model	Peter Walsh and J. B. Cruz, Jr.	211
A Note on Uncertainties in Control Applications	Benjamin Friedman	223
Uncertainty and Optimal Policy Intensity in Fiscal and Incomes Policies	Franklin R. Shupp	225
The Cost of Conflicting Objectives in Policy Formulation	Robert S. Pindyck	239
Decentralized Stabilization Policies: Optimization and the Assignment Problem	Finn Kydland	249
Computer Research Center Notes		263
Announcement		265

Number 3—Summer 1976

Control Theory Applications . . . Microeconomics

Introduction	David A. Kendrick and Edison Tse	i
Stochastic Models of Price Adjustment	Steven Barta and Pravin Varaiya	267
Competitive Analysis of the Arms Race	D. D. Šiljak	283
An Approach to the Feedback Control of Nonlinear Econometric Systems	Gregory C. Chow	297
First Order Dual Control	Alfred L. Norman	311
Caution, Probing and the Value of Information in the Control of Uncertain Systems	Yaakov Bar-Shalom and Edison Tse	323
Methods of Efficient Parameter Estimation in Control Problems	John B. Taylor	339

Econometric Policy Model Construction: The Post-Bayesian Approach — Arnold M. Faden and Gordon C. Rausser — 349

Number 4—Autumn 1976

Special Issue on Discrete, Qualitative and Limited Dependent Variables

Introduction	James R. Heckman
Quantal Choice Analysis: A Survey	Daniel McFadden
An Empirical Analysis of Factors which Influence College-Going Behavior	Meir G. Kohn, Charles F. Manski, and David S. Mundel
The Evaluation of Results from Truncated Samples: The New Jersey Income Maintenance Experiment	Jerry A. Hausman and David A. Wise
Some Methodological Issues in the Analysis of Longitudinal Surveys	Burton Singer and Seymore Spilerman
The Common Structure of Statistical Models of Truncation, Sample Selection, and Limited Dependent Variables and a Simple Estimator for Such Models	James R. Heckman
On a General Computer Alogrithm for the Analysis of Models with Limited Dependent Variables	Forrest D. Nelson
A Comment on Discriminant Analysis "versus" Logit Analysis	Daniel McFadden
Recursive Models with Qualitative Endogenous Variables	G. S. Maddala and Lung-Fei Lee
Numerical Aspects of Multivariate Normal Probabilities in Econometric Models	J. E. Dutt

AUTHORS' INDEX

Volume 5—Year 1976

Bar-Shalom, Yaakov and Tse, Edison. Caution, Probing and the Value of Information in the Control of Uncertain Systems, 323.

Barta, Steven and Varaiya, Pravin. Stochastic Models of Price Adjustment, 267.

Beach, Charles. Cyclical Impacts on the Personal Distribution of Income, 29.

Chow, Gregory C. An Approach to the Feedback Control of Nonlinear Econometric Systems, 297.

Corbo, Vittorio. Second Order Approximations for Estimating Production Functions, 65.

Craine, Roger, Havenner, Arthur and Tinsley, Peter. Optimal Macroeconomic Control Policies, 191.

Cruz, J. B. Jr. See *under* Walsh, Peter.

Dutt, J. E. Numerical Aspects of Multivariate Normal Probabilities in Econometric Models.

Engle, Robert F. Interpreting Spectral Analyses in Terms of Time Domain Models, 89.

Faden, Arnold M. and Rausser, Gordon C. Econometric Policy Model Construction: The Post-Bayesian Approach, 349.

Fenoaltea, Stefano. Real Value Added and the Measurement of Industrial Production, 111.

Friedman, Benjamin. A Note on Uncertainties in Control Applications, 223.

Fromm, Gary and Klein, Lawrence R. The NBER/NSF Model Comparison Seminar: An Analysis of Results, 1.

Haseman, William D. and Whinston, Andrew B. Information Systems for Public Sector Management, 139.

Hausman, Jerry A. and Wise, David A. The Evaluation of Results from Truncated Samples: The New Jersey Income Maintenance Experiment.

Havenner, Arthur. See *under* Craine, Roger.

Heckman, James R. Introduction.

Heckman, James R. The Common Structure of Statistical Models of Truncation, Sample Selection, and Limited Dependent Variables and a Simple Estimator of Dynamic Economic Relations from a Time Series of Cross Sections, 153.

Hymans, Saul H. Reply, 161.

Jayatissa, W. A. Criteria for Evaluation of Econometric Models: A Correction, 161.
